To ensure the parking sensors work properly, fit the bar as high up and as close to the bumper as possible.
Make full use of the maximum adjustment range of the buttonholes on the various brackets.

Per un corretto funzionamento dei sensori di parcheggio, montare la barra il più alto e ravvicinato al paraurti possibile. Sfruttare la corsa massima delle aole delle varie staffe.

Pour garantir le bon fonctionnement des capteurs de stationnement, installez la barre aussi haut et aussi près du pare-chocs que possible. Tirez pleinement parti de la plage de réglage maximale des boutonnières sur les différents supports.
